ABOUT ME

I am a Year 3 Computer Science student specializing in backend development with a focus on Laravel and MongoDB. I recently developed a pure backend API for a Student Course Registration System, utilizing Cloudinary and Postman to build a functional, real-world solution. With a dual background in Commercial Science, I am a highly motivated developer seeking to contribute technical efficiency and scalable logic to a forward-thinking startup.

SKILLS

- C/C++
- Java
- HTML
- CSS
- JavaScript
- Laravel
- MySQL
- MongoDB

LANGUAGE

Khmer : Mother-tongue

English : Excellent

PHORN SOKLEAP

Web Developer Internship
